

CLEVELAND SOCIETY FOR THE BLIND

1975
Annual Report

Mrs. Kelvin Smith

Dedication

With admiration and gratitude, the Cleveland Society for the Blind dedicates this Annual Report to Mrs. Kelvin Smith in recognition of forty years of outstanding service given to the blind and visually handicapped in our community.

As a past president of the Society and continuing member of its Board for thirty years, Mrs. Smith has contributed to its growth, development and prosperity. Her five-year tenure as president from 1952 to 1957 remains a milestone in the improvement of the Society's program to serve the blind. The Society is truly enriched by her many years of participation and its opportunity to be touched by her greatness.

President's Message

It is with pride that we bring you this Annual Report of Progress paying tribute to our seventy years of service to the blind and visually handicapped—and to those who have made this service possible.

We have come a long way since 1906 when the Society was an experimental weaving class in the Goodrich Settlement House.

The year just past was a good one. The Cleveland Society for the Blind was notified by the National Accreditation Council for Agencies Serving the Blind and Visually Handicapped that the Commission on Accreditation officially extended re-accreditation of the Society through 1979. The Society was commended by NAC for being among the first agencies and schools to achieve re-accreditation.

In combination with the Annual Meeting, the new wing to the Sight Center, which houses rehabilitation services, was dedicated. At the same time, the Mobility Training Park, believed to be the first of its kind in the world, was officially opened.

At the Annual Meeting, thirteen new Board members were elected to serve three-year terms.

Social Services continued providing services at a good, professional level. Casework, rehabilitation teaching, recreation and adapted aids and appliances services were provided for 2,776 individuals; Low Vision Clinic saw an additional 611 persons; and Prevention of Blindness Services screened 20,108 youngsters and adults.

J. Kenneth Cozier became the fourth person associated with the Cleveland Society for the Blind to receive the coveted Migel Award Medal for outstanding services to the blind.

Another first was the National Convention for the Deaf/Blind. The conference, held at Highbrook Lodge (the Society's camp for the visually handicapped), had delegates from 16 states, the District of Columbia, and Canada.

Forty-five blind children were treated to a "Feel and Squeal" trip to the Niagara Falls Aquarium and to a ride on the Maid-of-the-Mist boat beneath the Falls.

Marvin J. Laronge
President, Board of Trustees

No words can adequately express the gratitude for the growth and expansion which the Cleveland Society for the Blind has enjoyed. We are deeply grateful to every individual who has served the Society, to our dedicated Board, our hardworking volunteers, and to the staff.

We are especially grateful and appreciative to those with the Ohio Rehabilitation Services Commission and to those individual counselors who stay informed about the wide range of services available to the blind and visually handicapped at the Cleveland Society for the Blind and refer their clients to us for evaluation and personal adjustment training.

We are pleased to share with you this story of services for the year, 1975. We pledge to you our continued best in the coming year.

Director's Report

The Cleveland Society for the Blind is an organization entrusted with public funds which must be used to serve the needs of handicapped citizens. It must use its resources wisely in the best interests of its clients and the community.

The challenge is greater than ever before in this time of extraordinary inflation. Expanding needs of blind and visually handicapped persons are making even heavier demands upon the Society's resources.

Contributions for general support increased during fiscal 1975 almost 6% but expenses jumped over 11%!

In the last 8 years, our costs have nearly doubled. Yet, the agency's income has not risen enough to cover them. Frequently, we have found it necessary to draw from the Permanent Endowment principal (funds left to the Society as legacies) to make up resulting deficits.

During this time of increasing demands for service and rising costs, we must re-emphasize our efforts to increase the support of the general public for our cause. The most effective way of accomplishing this goal is to alert the friends of the agency about the services available to the blind and visually handicapped, as well as to the financial needs of the agency.

The annual report which follows outlines the way staff and volunteers work together for those who come to the Society for assistance.

INTRODUCTION

A review of The Cleveland Society for the Blind's work during the past year shows a year of renewed, vigorous effort to meet the demands of a growing client population in need of services.

It was a year in which we successfully concluded a number of special projects and one in which we undertook a number of important and highly promising programs.

It was a year in which most of our departments made substantial advances in intensifying and broadening their work to do more to strengthen the services of the Society.

MOBILITY INSTRUCTORS BRANCH OUT

In March of 1975, a grant of \$16,400. from the George Gund Foundation of Cleveland made it possible for the Agency to employ two community mobility instructors. There was an immediate demand from the Casework Department for their services. For the rest of the year, both instructors worked each day with adults.

Experienced home teachers and community mobility instructors had a total of 2,902 client sessions with 310 different persons.

A GRATIFYING DAY

The dedication of the new rehabilitation wing to the Sight Center took place on May 19, 1975. At the same time, the Mobility Training Park—allowing outdoor mobility training and recreation—was officially opened for business. The Cleveland Society for the Blind, long a pioneer in the development of rehabilitation programs for the blind, has led the way in travel training. The park is another first for the agency.

WORK TRAINING CENTER OPENS

Thanks to a \$21,000. grant from The John Huntington Education Fund, the Work Training Center became a reality in 1975. The early months were spent in setting up equipment and making test runs to determine if it was in good running order. By the end of the year, the initial trainees were working there.

Throughout the year, there was an average of 26 trainees in the Rehabilitation Center per week. Hours of service in 1975 for these individuals totaled 36,960.

A SPECIAL KIND OF HELP

A number of these trainees were severely retarded blind persons. Each one presented a different set of challenges for the staff. The end result: each student learned the basic skills of independence; each achieved some form of sheltered shop level of employment in the Workshop System of the County Board of Mental Retardation.

1975 saw the continued successful operation of contractual arrangements under the Contract Service Plan between the Bureau of Services for the Blind (Cleveland) and the Rehabilitation Department of CSB.

BUSINESS ENTERPRISES

Although performance was very good, sales in the Industrial Division were low. Steady employment continued in the making of Bulletin Boards, Lexsuco Mops and in the American Greeting Card assembly job.

Late in the year, a new contract was signed with the government to produce suspension assemblies for helmet liners. This job will bring steady employment year round for 8 to 10 blind men and women.

1975 also saw the agency enter into the Military Resale program of the National Industries for the Blind which ultimately will help the total sales figure.

There was a major change in the Snack Bar program in 1975. New Federal regulations brought about the discontinuance of the joint Society-State of Ohio Program. This reduced the number of Snack Bars supervised by The Cleveland Society for the Blind from 58 to 28. They are operated by 35 managers and 11 relief operators.

Four new Snack Bars opened during the year.

PROGRAM FOR THE DEAF/BLIND

A grant from the National Center for Deaf/Blind Youths and Adults made it possible for the Society to add Services for the Deaf/Blind to its program. Objectives of the program: to identify deaf/blind persons throughout the entire state of Ohio; finding their needs; working with all community agencies to attempt to meet the needs.

Communicating at the Deaf/Blind Convention

In August of 1975, the very first National Convention for the Deaf/Blind was held at the Society's camp, Highbrook Lodge. The conference, sponsored jointly by CSB, the National Center for Deaf/Blind Youths and Adults and the National Association for the Deaf/Blind, drew delegates from 16 states, the District of Columbia and Canada.

RADIO READING SERVICE

A \$252,000. grant from the Ohio Rehabilitation Services Commission and one in the amount of \$28,000. from the George Gund Foundation of Cleveland enabled the Society to launch a Radio Reading Service for the blind and physically handicapped in Greater Cleveland.

A primary objective of Radio Reading Service is to provide immediacy of the printed word and become a major link of communication between the handicapped and the community in which they live. Another major objective is to provide an opportunity to learn and share with each other all aspects of their handicap. This is a significant aid to becoming and remaining rehabilitated and integrated into the community.

The program is broadcast from a studio located in the Sight Center. By the end of next year, the station will be on the air 18 hours a day.

CRAFTS-FOR-SALE

A grant from ACTION enabled the Society to hire a part-time worker for the Crafts-for-Sale program. This is the program through which visually impaired individuals create craft items by hand to sell. With this additional staff, more craftsmen were added and many volunteers were recruited to help in a variety of ways: cutting of materials; bookkeeping; manning booths at fairs, shopping centers, etc.; designing crafts; and teaching new craftsmen.

In 1975, the program doubled the total disbursements it had paid to craftspeople the previous year! Sales were in excess of \$10,000. with proceeds over \$7,500. divided among the 60 participating clients.

ACTIVITY DAY

If you happened to visit the Sight Center on a Wednesday during 1975, you probably were caught up in the good happenings of Activity Day. In almost every nook of the Sight Center, things were going on: Knitting classes and Bridge lessons; Cooking and Conversation groups; Crafts for home and Mosaic work; Group singing; Physical Fitness; Arthur Murray Dance Lessons; Braille Music; and Ceramics.

A favorite class on Activity Day

PEOPLE-FOR-PEOPLE

In 1975, Cleveland Trust kicked off its "People-for-People" program of Involvement Corps. The Corps is a non-profit volunteer organization which involves business people in community volunteer work. Cleveland Trust selected the Society as its primary focus. By the end of the year, 50 employees of the bank were involved in several volunteer areas at the agency.

PREVENTION OF BLINDNESS

The part of our program which is the least supported by the public at large, is at the same time the part of greatest importance. It is Prevention of Blindness.

In the past year, the Society registered 714 new cases! In the coming year, it is estimated that 900 men, women and children in Cleveland will become blind.

The Prevention of Blindness Services' emphasis in 1975 was on education for better eye health, eye safety and the knowledge about causes of blindness.

James L. Vendeland, M.D., and Dr. Eleanor E. Faye

One of the most significant events of the past year was the "Eye Update II" Seminar and the Low Vision Seminar. The two-day program attracted more than 200 nurses, physicians, optometrists, social workers and rehabilitation people who came to learn from experts about current medical and surgical techniques. Special guest, Dr. Eleanor E. Faye from the New York Lighthouse was the main speaker for the Low Vision Seminar and spoke on dealing with specific problems of those with low vision.

Preschool Vision Screening reached more than 17,000 youngsters — many of these in Day Care Centers in suburbs, as well as in the city of Cleveland. A total of 434 children were referred for medical evaluation and treatment.

During the year, 3026 adults were screened for glaucoma; 104 were referred for further medical evaluation and treatment.

DRAMATIC RISE IN LOW VISION CLINIC

Each year, more and more individuals are learning that people with low vision can see. They need the help of magnifiers and in 1975, a total of 611 persons came for help to the Society's Low Vision Clinic. This is a 45% increase in one year!

The Star Crab was a "star" attraction at the Niagara Falls Aquarium

A GREAT BIG BEAUTIFUL DAY

A surprise highlight of the year for visually handicapped children was the trip to Niagara Falls. There, 45 children visited the Aquarium which has a "feel" tank complete with starfish, horseshoe crabs and shellfish. The tank was created especially so that children who have a visual handicap could get firsthand knowledge about some of the inhabitants of an aquarium.

After each child had a turn at the "feel and squeal" tank, they all boarded the Maid-of-the-Mist boat for a trip beneath the Falls. This special day rounded off with a dinner at the Goose's Roost. It was a happy two busloads of youngsters all the way.

The number of children enrolled for services in 1975 rose from 146 (a fairly steady figure for the past 5 years) to 195. By the end of the year, the causes for this tremendous jump were still not known.

THE INSIDE STORY — THE VOLUNTEER

The inside story on the success of The Cleveland Society for the Blind is the dedicated work of hundreds of volunteers.

It begins with those who set the policy and oversee the administration of the agency — the Board of Trustees. In addition, there were a total of 3,070 (unduplicated count) men and women who gave 171,918 hours of time in almost every program area of the Society.

Without the tremendous contributions of these volunteers — and the financial support of a generous public, The Cleveland Society for the Blind could not continue to offer its comprehensive services to the blind and visually impaired.

PUBLIC EDUCATION AND INFORMATION

To help inform the public about the services of The Cleveland Society for the Blind, volunteers and staff members appeared on many radio and television programs during 1975. In addition, countless radio and television spot announcements on behalf of the agency — worth thousands of dollars — were aired free of charge.

Newspapers devoted much space, including numerous photos, to the CSB cause.

More than one million pieces of literature were distributed last year and there were 335 tours and speaking engagements before an estimated 14,328 persons. In addition, there were some 500 film showings held, utilizing Cleveland Society for the Blind films.

Throughout the year, a number of exhibits were set up featuring the Society and its materials.

How You Can Help

The extensive and individualized service program of the Cleveland Society for the Blind would not be possible without the generous contributions of its many friends. Gifts from our many donors provide essential subsidy to the basic financial support we receive from The United Torch Services.

But -- we always need to make new friends to assist us in our effort of strengthening the services for the blind and visually handicapped members of the community.

Financial assistance can be given in many ways: a cash gift; a transfer of securities or other property; gift annuities, bequests and life insurance gifts.

All gifts are deductible for income tax purposes. Your attorney or banking consultant can help you with your arrangements.

For further information on how you can help, contact the:

Year in Brief:

PREVENTION OF BLINDNESS

Number children screened for amblyopia (lazy-eye)
 — Number referred for further medical evaluation and/or treatment

17,082
 434

Number adults screened for glaucoma
 — Number referred for further medical evaluation and/or treatment

3,026
 104

DIRECT SERVICES TO THE BLIND AND VISUALLY HANDICAPPED

Number persons receiving direct services
 — Number new clients (1975)

2,776
 714

Number persons receiving rehabilitation evaluation and training at the Sight Center
 — Hours spent in rehabilitation training:
 Mobility, braille, evaluation of skills, etc.

124

Number of persons receiving rehabilitation services in the community
 — Number of sessions

32,340
 310
 2,902

Number of children served
 — Number referred in 1975
 — Number of interviews

195
 37
 306

Number of persons served in the Low Vision Clinic
 — Number of clinic sessions

611
 905

SUPPORTIVE SERVICES

Number of persons served in Aids and Appliances
 — Number of service contacts

589
 1,104

Number of new Talking Book machines placed in 1975
 — Number of Talking Book machines now in service

535
 2,364

Number of requests for printed materials to be recorded onto tape
 — Number pages recorded for above requests

1,614
 217,890

Number of requests for printed materials to be transcribed into Braille
 — Number pages brailled

530
 105,414

SOCIAL DEVELOPMENT

Number of participants in group activities and recreation
 — Number of sessions and/or special events

435
 3,033

RESIDENT CAMPING SERVICES

Number of adults and children attending camp
 — Number of camper days

207
 1,916

COMMUNITY HEALTH EDUCATION

Number of tours and speeches
 — Number of persons on tour and in audiences
 — Additional persons reached by films (estimated)

335
 14,328
 30,000

EMPLOYMENT SERVICES

Number of persons employed through:
 — Sheltered workshop, Food Services,
 Home industries and Crafts-for-Sale

233

VOLUNTEER SERVICES

Number of volunteers (excluding Board of Trustee members) who served the agency in 1975
 — Number of hours (excluding Board of Trustees) given

3,070
 171,918

RECEIVED

JUN 17 1976
